

HOW TO SECURE A ROPE TIE

How it Operates...

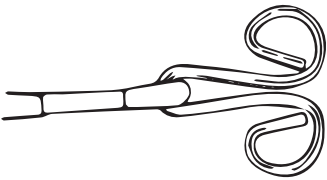

Shirts are hung on a rack by your counter person who then ties the shirt bundle with no knot hooks (shirt bundles are tied below shoulder and above cuffs leaving cuffs and colors to receive a complete washing.)

How to Tie...

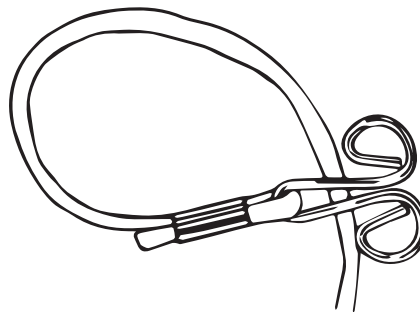

STEP 1:

Wrap cord around shirt bundle. With the hook pointed toward you, press on the bundle and pull the cord tight.

STEP 2:

Draw the cord into the groove.

STEP 3:

Pull the cord over the shank of the hook, under the left hook and into the groove. Heavy pulling is not necessary.
